Operating power 230 V, 50/60 Hz

### CE approved product

The machine starts indicating when it is filled to 80%. To protect it from overload, the shutter locks itself automatically, if the machine gets filled to 100%.

## Do not waste your time!

Save time and space in your business and at the same time motivate the visitors to keep the area clean!

The unique and safe waste compactor Orwak 1030 is suitable for public environments like fast food restaurants, amusement parks, shopping centers, airports, bus and train stations.

No more overflowing waste receptacles in sight and much less time spent on switching bags! The waste compactor provides a simple and hygienic waste handling with a shutter that opens automatically. No touch required! The front waste removal door is safely locked to protect users. The machine indicates "switch bag" well in time before it is full.

## Ideal close to the customers

With a cycle time of only 15 seconds, Orwak 1030 is an incredible fast and efficient servant even during rush hour. The very silent running machine is ideal for a location close to the customers.

With its neutral or customized design, Orwak 1030 harmonizes well with different settings!

*Orwak 1030 profiled after the customer's choice (large volume orders only).*

## Small footprint - efficient compaction!

Orwak 1030 does not take up more space than an ordinary waste receptacle, but the compaction ratio is up to 12:1 depending on the type of waste!

### Our promise to You!

- Orwak financial solutions
- Orwak non-stop service

*For further information please contact Your local Orwak dealer.*

*When approached, the shutter opens automatically*

*The waste is compacted in a bag in a closed chamber.*

*Orwak 1030 can easily be combined with a liquid module with containers for 2 x 20 L or with a connection to the disposal system.*
