Total flexibility

Our machines, the 5031 and the extended 5031-E which has a larger chamber, provide maximum handling flexibility for all waste products.

Alternating between baling or compacting in bags of recyclable and/or disposable materials. The 5031 serie offers great flexibility for companies with any volumes of waste products.

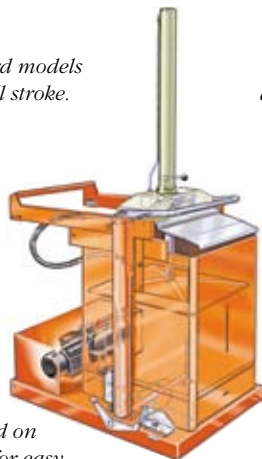

Bale and/or bag

The 5031 produces bales or bags weighing up to 50 kg (5031) or 65 kg (5031-E). Press force is 3 tons, operating cycle time approx. 30 seconds. Special models of the 5031 are also available for dusty environments.

Standard models have full stroke.

Three-stage simple and safe operation.

Only weighs 315 and 365 kg respectively.

Bales can also be contained in bags.

Mounted on wheels for easy manoeuvring when cleaning.

Developed from wide experience

Our 5000 serie is built from wide experience in all business situations. Some of the functions that influence the choice of machine are compact size, improved hygiene and reliable operation.
